Agenda and Minutes

The 9th AICF General Meeting was held according to the agenda. Here is high level of agenda and outcome the discussion.

- Approval of predetermined next Chairperson
 - Institute Professor. Ohyama kindly accepted position of chairperson as successor of Professor. Ho Hyeorn Han.
- Next General Meeting 2020
 - To be discussed via email for schedule and place.
 - Same as before, GlobalPlatform Japan Task Form team plan to hold joint seminar in Japan with NICSS, and they are expecting to get presentation from AICF.

- Discussion about the current AICF
- Next target of AICF's activity
- About attracting new member country
- Others including naming of AICF
 - IC card have been widely spread in the market, it seems that name of AICF is not fitting in the market now. Apart from AICF name, all of AICF member agreed to define new scope of AICF's further activity to contribute the market rather than change of naming of AICF.
 - Renaming of AICF is not urgent.
 - Define new scope is important than renaming of AICF.
 - For example, new scope will focus emerging application such as IoT for Automotive, autonomous driving with identification, healthcare insurance card utilize attribute, digital ticket for upcoming world expo in Osaka 2025 and so on.
 - Once new scope is defined, execute promotion activity bring with new scope for attracting new member country of AICF and collect security needs from them to address Asia market.
 - There was report from Korea that some entity in China is becoming difficult situation to be membership of AICF due to political reason.
- Others
 - Japan will maintain of AICF home page from now.
