Asia IC Card Forum is the organization that 3 IC card related corporations representing its own country of Japan, Korea and Singapore agreed to establish. And its goal is to secure the IC card interoperability which will be the key device to sustain IT society in the future, to advance the technology, and to establish the common platform.

For this objective, the Forum has the motto of One Card, One Asia on the Silk Road, realized the cooperation of 3 countries. In accordance with this idea, IC Card Forum restarted its activities as the 3 countries system.
